`getWelcome` in `app.service.ts`:

```
getWelcome(name: string) {
  const tasks = [
    'Install Node.js',
    'Create mytasks',
    'Run my server',
  ];

  return {
    message: `Welcome to MyTasks, ${name}!`,
    taskCount: tasks.length,
    tasks,
    serverTime: new Date().toISOString(),
  };
}
```
